BOOK Design

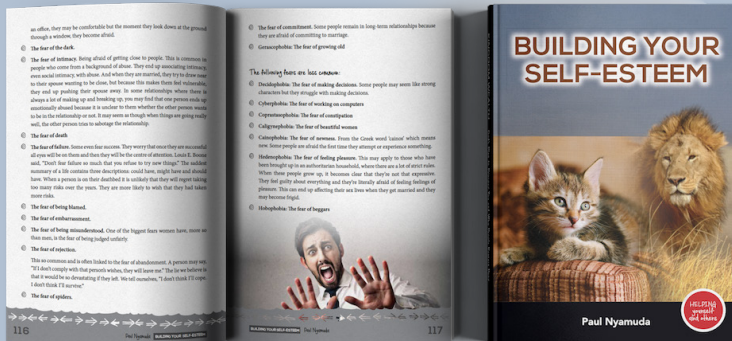

Nadiart helps clients to realise their dreams of self-publishing their books. The cover of a book is of utmost importance because it will determine whether a reader will pick it up or browse on. Therefore we proudly produce books that stand out from the crowd, not only in terms of covers, but also in terms of page design and layout. We believe in more than just striking layouts and composition. A great page design actually provides an optimal reading experience by enhancing the text's readability so that authors can effectively communicate their message.

We start by guiding the author to accurately identify a book's character and then we help bring that specific genre to life through a creative process of combining strategic insight with style and design.

We do fixed-layout eBooks for publication on Amazon, supported by a social media advertising campaign that we manage on behalf of the author.

Nadiart takes care of all technical aspects of the book so that the author doesn't have to worry about anything other than his/her creative writing:

- Printing in full colour or conversion to black & white for inner pages, trim, bleed, margins, image resolution, centre curves, optimal page size.
- Editing and proofreading, language and grammar (if required)

From a conversation to a long-term relationship based on trust, mutual respect and service

The Heiden Grimaud Group

The Heiden Grimaud Group is an investment-led business, specialising in the financial service industry, specifically asset management. The group also holds various non-related strategic long-term investments in other industries through private equity holdings. Throughout our history we have developed and nurtured a culture of independent opinion and thought processes, giving us the courage to fly in the face of popular opinion when we deem it necessary.

The group has established itself as one of the leading boutique investment houses in both local and offshore markets and has operational offices in Ireland, South-Africa and Belgium.

What you can expect from the Heiden Grimaud Group:

- A clearly defined and structured wealth and investment process.
- Transparency in fees, risks and outcomes.
- Use of clear and understandable language.
- Ongoing dialogue, not just an occasional conversation.
- Tools to help you stay connected and monitor your financial picture.

The investment policies and client focused approach is determined by a group of independent advisors. Additions to the team are hand-picked based on experience and skill.
